Essential Resources for Engineering Success™

With your financial support, GSPE can expand its resources to serve the public and the engineering profession. You will enjoy tangible benefits as well as high visibility and access to GSPE members.

- **Advocacy**
- **Education**
- **Involvement**
- **Outreach**
- **Leadership**

The *Georgia Society of Professional Engineers*, a state society of the National Society of Professional Engineers, with 1,000 members organized into ten local chapters. The Society is an expert resource for information about engineering ethics, education, and best practices of the profession. Your involvement with GSPE offers the opportunity to become involved with: MATHCOUNTS® (middle School Math), introduce a girl to engineering, university Student Chapters Future City competition and other outreach programs. GSPE members participate in a broad range of activities including a daily presence at the Capitol during the Legislative session; serving on State and Local Chapter Committees; conducting educational seminars; enhancing the image of engineering through leadership in Engineers week; publication of *The Georgia Engineer* magazine; recognition of new Professional Engineers and awarding college scholarships to engineering students.
